This book may be worth purchasing. It typically fails to expense excessive. It is extremely difficult to leave it before concluding, once you begin to read the book.

Brand New Book ***** Print on Demand *****.Excerpt from American History It has been the aim of the authors of this book to give the main features in the development of our Nation, to explain the America of to-day, its civilization and its traditions. In order to do this, it was necessary to select topics from the various fields of human activity, the political, industrial, social, educational, and religious. Emphasis has been placed upon the fact that the position the United States occupies among the great nations is due primarily to the achievements of men and women in these fields. Consequently the military phases of our history, striking as some of them are, have in a measure been subordinated to the accounts of the victories of peace. We have thought it desirable also to give greater prominence than has been usual in school texts to the advance of the frontier and to the growth and influence of the West. Particular care has been taken to state the essential facts in European history necessary to the explanation of events in America. How may the subject be best presented to the pupils of high-school age has been constantly in mind. To that end, only trustworthy illustrative material has been included and the maps have been prepared with great care. While there is no separate chapter or section devoted to a discussion of the physical geography of America, it will be noted that the influence of geographical conditions has been constantly stated in connection with events and conditions mentioned in the volume.
